leva NEW

Espressione pura del concetto di leva, rimanda al mondo della meccanica e ai suoi strumenti.
È caratterizzata, nella parte frontale, da un taglio netto sulla materia che si relaziona in armonia con la parte interna, arrotondata e accogliente.

A pure expression of the concept of lever, it evokes the world of mechanics and its tools.
It is characterised on the front by a clean cut on the material that relates in harmony with the rounded and welcoming inner part.

Elena Salmistraro

Product designer ed artista, vive e lavora a Milano.
Si laurea in industrial design al Politecnico di Milano e nel 2009 fonda il proprio studio che si occupa di architettura e design, collaborando come product designer e illustratrice con molte aziende dell'industria creativa.
È interessata allo sviluppo di un lavoro che si collochi a cavallo tra illustrazione, design e arti visive, mediante il quale intende definire un personale codice comunicativo.
Tra le priorità delle sue creazioni, spiccano l'attenzione al dettaglio e la ricerca armonica delle forme, inseguite nell'antropomorfismo e nel primitivismo.
Un eccesso di simboli grafici offre all'oggetto un'immagine stereoscopica trasportandolo in un territorio sospeso tra fantasia e realtà.

Product designer and artist, she lives and works in Milan.
She graduated in industrial design at the Politecnico di Milano and in 2009 founded her studio that works in architecture and design, collaborating as a product designer and illustrator with many companies in the creative industry.
She is interested in developing work that combines illustration, design and visual arts, through which she intends to define a personal code of communication.
Among the priorities of her creations, emerge attention to detail and the harmonious search for forms pursued in anthropomorphism and primitivism.
An excess of graphic symbols gives the object a stereoscopic image, transporting it into a territory suspended between fantasy and reality.

crisalide NEW

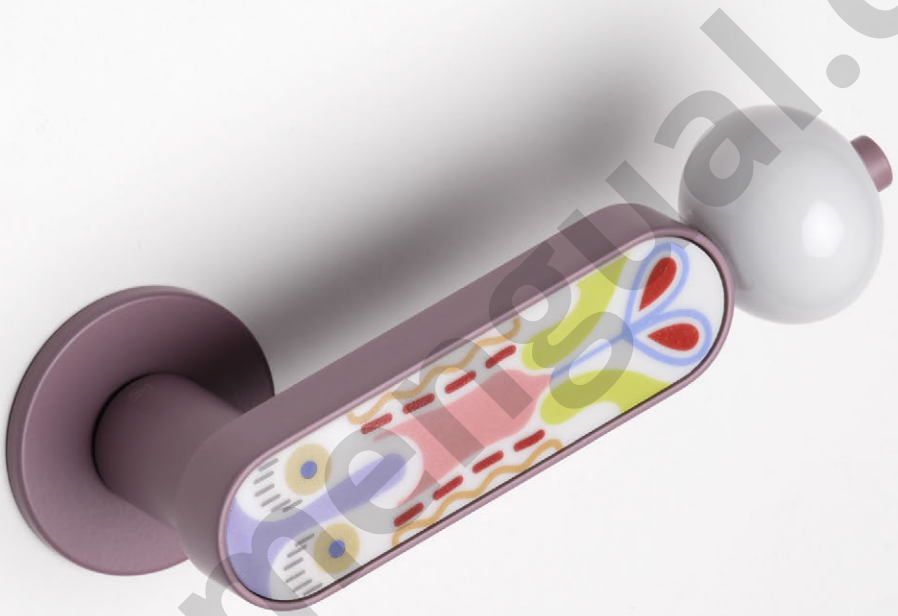

Colori vivaci e segni primitivi per una maniglia che rimanda al variopinto mondo animale. Un metamorfismo e una leggerezza intrinseca che sono proprie del mondo delle farfalle e diventano tratto distintivo di una maniglia funzionale ma sempre pronta a librarsi in volo.

Vibrant colours and primitive signs come together in a handle that reflects the world of animals. It captures the essence of metamorphosis and inherent lightness, reminiscent of butterflies, becoming the distinctive feature of a functional handle that is always ready to take flight.

Come un filo bidimensionale che arriva dai bordi della porta, disegna la maniglia e poi continua il suo viaggio, ora verso l'altro lato, ora verso l'alto, ora nell'altra direzione.

Like a two-dimensional line that arrives from the edges of the door and draws the handle before continuing on its way, towards the other side, upward, in the opposite direction.

Sottili scanalature per l'impugnatura, in omaggio allo stile ionico; e un modellato morbido ma rigoroso per lo stelo: una maniglia che guarda agli stili della storia, in equilibrio tra antica Grecia e Rinascimento.

Subtle grooves in the handle, redolent of the Ionic style, along with a soft yet rigorous shape for the stem: a handle that draws upon styles from throughout history, carefully balanced between Ancient Greece and the Renaissance.

Ginkgo Biloba, la versione della maniglia Ginkgo con l'incisione in superficie, è un ulteriore rimando metaforico alle venature della foglia.

Ginkgo Biloba, the version of the Ginkgo handle with the decorative surface engraving, is a further metaphorical reminder of the veins of the leaf.

Una costruzione formale palindroma: il profilo della vista superiore è identico a quello della vista frontale, ribaltato di 180 gradi. Una forma elegante ed essenziale, un volume mutevole che suggerisce all'utente la presa con il suo profilo frontale.

A palindromic structural form: the profile in the view from above is identical to that of the frontal view, but reversed by 180 degrees. An elegant and essential form, a mutable volume that suggests the proper grip with its frontal profile.

luce

La maniglia come fatto scultoreo, dove la luce evidenzia morbidezze e taglia i volumi in modo netto per restituirci l'idea stessa di un concetto plastico fuori dal tempo.

The handle as sculpture, where light brings out softness and volumes with clarity, conveying the idea of a timelessly shaped object.
